

Discover **Universal Robots+**

Universal Robots + is an online showroom, providing you with cutting-edge products to customize a UR robot application that perfectly meets your requirements. You will find everything you need in one place – from end-effectors and accessories to vision cameras and software.

All products are tested and approved to perfectly integrate with UR robots to take the trial and error process out of creating a robot application. The result is fast, smooth and low-risk integration. Some of the products on display are also “Certified by Universal Robots”. This certification is your guarantee that the product is already employed and well running at an end-user.

Should you at any time before, during or after the integration process require any help, you have access to direct support from the manufacturers of all the products on display.

About **Universal Robots**

Universal Robots is the leading manufacturer of collaborative robots. Right from the beginning our objective has been clear: To make collaborative robots accessible to companies of all sizes – and so we have. Around the world, more than 10,000 UR robots are in operation, optimizing productions and relieving workers of tedious, monotonous tasks.

The UR robots come in three sizes, all equipped with the same benefits:

- Collaborative and safe
- Fast set-up
- Easy programming
- Flexible deployment
- Fastest payback in the industry

UNIVERSAL ROBOTS +

Customize your UR robot with cutting-edge products

Customizing a robot has never been easier

1. Find your product

Get started with customizing the perfect UR application. Explore the world of Universal Robots+ products in the online showroom by browsing between end-effectors, accessories and software. You can customize your search to filter by specific robots or tasks. Select a product and you will have access to product videos, features and benefits, technical details and much more. Once you have decided on a product, simply contact the manufacturer directly to get hold of it.

2. Plug & Play makes automation easier

Many products displayed on Universal Robots+ are completely Plug & Play and ready to use straight from the box. We are dedicated to ensuring that the products we offer feature simple setup, reliable operation, smooth user-experience and easy programming. Why? Because we want to make the process towards automation as easy as possible.

3. Professional support right at hand

Professional support is always right at hand if you need more product information or technical assistance at any time during the selection or integration phase. Universal Robots+ offers direct contact to the manufacturers of all the products featured in the online showroom. Contact them and within 24 hours they will provide you with the necessary expertise and guidance.
